KOSMOS

Self-Service Kiosk

Compact self-supporting design

Ultra-stable thanks to its specific compact and self-supporting design, the **KOSMOS** kiosk fits on the floor without any fixings thanks to an adapted stand.

Its design reveals a controlled integration of high quality and high-performance sub-systems, the YUNO 15", 21.5" or 27" touch systems. Also receipt printing system with presenter/retract function and payment terminals.

KOSMOS is suitable for many retail businesses offering a range of takeaway sales, thanks to its multiple management application options: booking and order taking, click and collect, purchase and sales assistance, queue busting, subscription and customer loyalty card management and other promotional operations.

KOSMOS

15", 21.5" or 27"
